SOFTWARE TESTER

Education

Bachelor's degree in Computer and Information Science, 180 hp - Faculty of Technology and Society, Malmö University , Malmö

AUGUST 2016 — JUNE 2019

Throughout the education I've learned how to analyze, organize and integrate information and information flows. Topics included were information technology, web design, programming and Information Security. In my opinion, a very rewarding education that has both made me develop as a person, but also given me the confirmation that it is digitalization and creativity I want to work with.
